Civil Defense: Part II Here's Story On Fallout

NOTE: This is the second of a series of articles on Civil Defense preparedness, presented by the Three Arts Club of Cameron. — Ed.

Fallout is tiny pieces of dust and debris which are made radioactive by nuclear explosions. When a hydrogen bomb is exploded close to the ground, thousands of tons of these tiny particles of dust and debris are sucked upward high into the air. They help form the mushroom cloud which is always seen with one of these explosions.

Some of this radioactive matter spills out of the cloud near the explosion. Most of it is carried by the wind for many miles. Eventually it settles to earth. It is called fallout and continues to give off radioactivity until it decays.

YOU CAN SELDOM FEEL IT, often you can't see it, but if you are exposed to much of it long enough, it can make you seriously ill even if the radioactive particles do not settle on you.

IT COULD KILL YOU. A mass of material between you and the particles is needed for protection.

Weather and radiological experts can estimate the path and speed of fallout after an attack. They will tell you how much time you have to protect yourself through your Conelrad radio stations at 640 or 1240 on your dial.

BUT THE BASIC RESPONSIBILITY is yours. Listen for the instructions of your local officials. Follow them carefully. Wherever you are - at home or away - seek the best available protection and stay there as long as you can or until advised to come out.

The best protection is an underground shelter with at least three feet of earth or sand above it. Two feet of concrete will give the same protection. If the shelter has an adequate door and an air filter, it will give you almost complete protection.

An ordinary house without basement probably would cut the radiation in half, if you stay on the first floor near the center of the house. Staying in a house basement will reduce your exposure to about 1-10 the outside exposure. If you can sandbag the basement windows, there will be a further reduction.

If you arrange a basement refuge, with a mass of material around and above you such as sandbags, you can reduce your exposure to about 1-100 of the outside exposure.

Large buildings give good protection. Their masonry or concrete construction generally makes it harder for radiation to get through. Basements, inside rooms or corridors are safest.

Outdoors, a culvert that can be blocked off at the ends will furnish protection. A trench or ditch also will protect you if it can be covered quickly with three feet of earth or other heavy materials.

NO MATTER WHERE YOU ARE the denser the material you put between yourself and the fallout, the better protected you are. This can be earth, sand, or other material. In a pinch, it can be stacks of books, magazines, newspapers or filing cabinets.

BE PREPARED. Determine which is the safest area in your home or place of business. Decide what needs to be done to it to give you the best possible protection. Then do as much of this as you can now.

REMEMBER:
Fallout is dangerous.
There are effective protective measures against it. The best protection comes from three feet of earth or other heavy material between you and the fallout. The best protection is planned and prepared in advance.

The best protection is not good enough if you can't stay in your shelter until you are told to come out.

PRESIDENTIAL CITATION — Mrs. Leon Brady and James H. Baugh are shown with five year citations for draft board service presented to them last Sunday in the local board office in the Citizen National Bank Building. Presenting the awards were August G. Kunz, Chairman of the local board, and Don Humble, associate government appeal agent. Mrs. Brady accepted the award in behalf of Leon Brady who was unable to attend because of his recent confinement in a Temple Hospital. —Stafffoto

Farm Potential Big, Gaston Says

William H. Gaston, county FHA supervisor Monday said that Milam County has tremendous potential for increased agriculture income and cited an East Texas County that boosted its farm income by \$1.2 millions.

Speaking before the Cameron Lions Club, Gaston emphasized that agriculture income decline is the basis of Milam County's economic problems.

"Agriculture is our biggest manufacturer of economic products and is our biggest business," he said.

Bus Overturns Monday At Milano; 24 Pupils Aboard

A Burton school bus loaded with 24 Negro school students overturned about 11 p. m. Monday at US 79 - SH 36 west of Milano.

Eight students were rushed to St. Edward's Hospital where three were treated for minor injuries. All the pupils were released after medical examination.

State Patrolman Jack Straley said the bus driver apparently lost control while turning at the intersection.

Driver Campbell Francis, 55, Negro, of Burton, pulled off the road while making a turn, then lost control as he tried to pull back on road. The bus turned over on its right side.

Two right buses were returning from the Texas State Fair in Dallas when the accident happened, Straley said. Students from the wrecked bus were taken to Burton in the second bus.

North Milam Fund Starts Drive Here; \$11,500 Goal Set

About 30 North Milam United Fund workers Monday met at an organizational coffee and started the campaign for the \$11,500 goal.

NM Fund President Hinton Pruitt and Campaign Chairman Richard Moseley emphasized the need for a successful drive this year. Workers began contacting businesses for special gifts this week in the first week of the drive.

Participating agencies include: Boy Scouts, Girl Scouts, Red Cross Salvation Army, Texas United Fund, Area Charities and the Cameron Library.

Th drive will continue through October 30, Moseley said.

Moseley points out that contributing to one organization for seven agencies is much more convenient than contributing to the same organizations in seven separate drives.

City Buys Stop Signs, Admonish Speeding Trains

The City Council Tuesday voted to erect 24 new stop signs in Cameron.

Mayor Coleman Duncum also instructed City - Atty. Charlie Smith to write Santa Fe Railroad concerning the speed of trains passing through Cameron and about clearing grade crossings of weeds.

He said that trains have been going through Cameron at high rates of speed and signal devices hardly seem to have time enough to function before some of the trains reach crossings.

Councilmen also voted that Cameron Police Dept. personnel will wear Western style hats instead of the present service - type of officers cap. Chief Elvin Hoskins requested the new hat.

Hoskins also received council approval for processing ticket fines faster for those persons wishing to pay their fines without a hearing in City Court.

Also granted was a 10-year extension of a lease to the Cameron Saddle Club for the arena area in Wilson Ledbetter Park.

Councilmen also approved purchase of a Victor calculator for City offices at a price of \$571.50.

Public Works Supt. J. B. Earle reported that drainage in north-east Cameron was considerably better during this week's rains and that completion of additional work will give that area of Cameron a better drainage system.

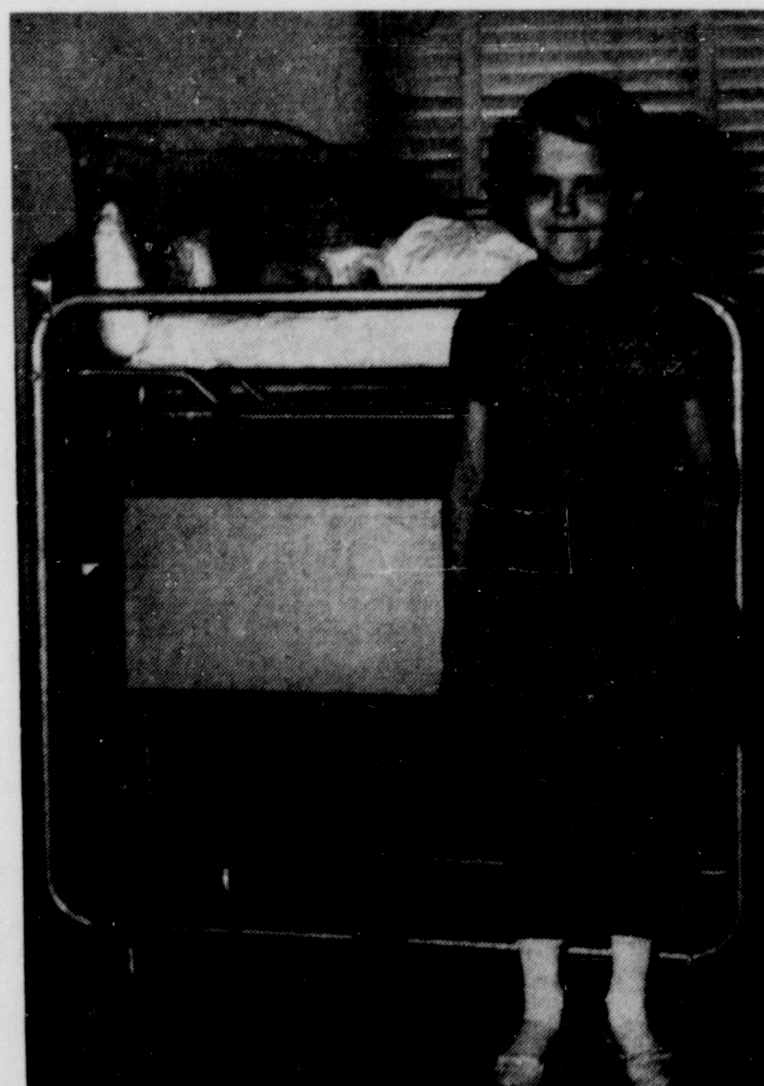

The Council also discussed the need for cleaning up the City Court docket and back fines with Chief Hoskins.

BABY GOES HOME — Ellen Rae Lucko, infant daughter of Mr. and Mrs. Monroe Lucko, shown with her sister Connie, 5, prepares to go home after a complete "exchange transfusion" after birth at St. Edward's Hospital. Both infant Ellen Rae and her older sister were "Rh" babies which require the special exchange due to an incompatible blood factor between mother and unborn child. The condition occurs rarely. —Stafffoto

Herald Citing Newspaper Week

The Cameron Herald pauses to cite National Newspaper Week, October 15-21.

Groups of students, businessmen, farmers and everyone interested in learning how a newspaper does its job are cordially invited to visit The Herald Thursday or Friday.

We say we pause to cite the annual observance because the process of newspapering, like everything else, goes on.

Perhaps you wonder how a newspaper page always seems to "work out", why it doesn't spill over unevenly from its columns. The Herald's staff would be happy to show you why as well as how the process works.

Some people would say that newspapers take their role too seriously. Others fail to see why the press doesn't pursue its mission more zealously.

A newspaper is an enigma. It could properly be called a mirror with more than two dimensions. A newspaper must reflect the actions of its readership, but somehow, point up the three dimensional needs and desires of the sum of its readership.

That is a job. It is a sometime thankless task that evokes misunderstanding and misinterpretation. But it is a task that makes each edition a challenge to newspaper personnel and readers alike.

What you can see in The Herald plant are the utensils that bring the epic or the trivial of a courtroom, a hospital ward—a gridiron, the backfence, a barroom—to your easy chair. You need not range further than your mailbox or the newsstand to know the news that happens all around you. And it's there for reference when you want to read it.

We hope these things become more meaningful when you visit The Herald this Newspaper Week.

Prowlers Break Front Windows, Get Some Loot

Unidentified prowlers have broken into two Cameron businesses during the past five days.

And reports of prowlers in residential areas have reached The Cameron Herald.

Police Chief Elvin Hoskins reported that unknown prowlers broke a window in the front of The Safeway, Inc., Store sometime last Friday night and took seven cartons of cigarettes.

Nothing else was found missing, Store Manager S. D. Ripley said.

Prowlers duplicated the act sometime Sunday night at Irving's Dept. Store, breaking a door window and entering the store. Store owner Irving W. Bornefeld told The Herald that about half a dozen wrist watches were taken, but it was difficult to know if any other merchandise was missing at that time.

Jack Mercer, a fingerprint expert with the Dept. of Public Safety, Austin, took fingerprint samples around the glass and door broken through by the burglars.

Police officials also reported that prowlers had been reported in two residential areas of Cameron, but that no leads had been established as to the identity of the prowler or prowlers.

Hoskins said that city police are making extra efforts to apprehend the prowlers, but that no suspects had been taken in yet.

Eastland Cites Role Of Rotary International

Rotary Clubs in 116 countries are united in these difficult times of international tensions in an endeavor to promote understanding, good will and peace throughout the world.

That was the message Donald Eastland of Hillsboro, governor of district 87 of Rotary International, brought to the Rotarians of Cameron yesterday following a conference with local Rotary officials.

In addition to the activities of the more than 10,600 Rotary Clubs within their own communities to promote this objective, Eastland explained, Rotary International has awarded grants of more than \$3,300,000 in the past 13 years through its program of student fellowships, which enable outstanding college graduates to study for one year in countries other than their own, as Rotary ambassadors of good will.

Since 1947, when this program was established, 1,322 Rotary Foundation Fellowships have been awarded to students in 68 countries for study in 4 countries, with grants averaging \$2,500.

It's Coming!

The Herald's big Centennial issue is on its way.

To commemorate its first one hundred years, the Herald for some time has been planning a special edition. Many changes have taken place - in Cameron, in Milam County and in the Herald itself - during that century. Old files of the newspaper have been searched for stories of the events, the men and the women who have played their part in bringing about those changes.

It is quite a story. Watch for it.

WEATHER NOTES

Official temperatures recorded in Cameron for the past week show a high of 93 and a low of 59 with a total precipitation of 4.16. Rain was measured at 2.03 October 14, .16 October 16 and 1.97 on October 18.

Temperatures were:

OCT.	HI	LO
12	87	64
13	93	65
14	96	63
15	85	65
16	79	66
17	80	65
18	87	59

The Hornets will field a starting lineup that averages 160 pounds per man. Heaviest man in the line is 214 pound senior tackle, Vic Barnett. Lightest man is 138 pound sophomore guard, David Zgabay.

The backfield will average 153 pounds. Fullback L. J. Horak tips the scales at 192 and is the squads leading ball carrier.

Ed Lierman, speedy Cameron halfback is suffering from a separated collarbone and it is doubtful that he will see much, if any, action. Amos Daskocil has recovered from a broken foot and will fill in for Lierman.

Bobby Nelson, Larry Hillman, and Mike Koranek are three freshmen that will be out of the lineup indefinitely due to injuries.

State Law Requires Student Attendance Of Youngsters 6-16

Cameron School Supt. Earl Knebel announced that a number of Milam County boys and girls are not meeting compulsory requirements to attend school.

Other students have enrolled, but are attending classes only part of the time, he added. Enrollment is off about 25 - 30 students in the Cameron district at this time.

School officials cite state law which requires all students 6 years old before September 1 and not yet 16 to attend school. Parents of students not attending school are subject to a fine under compulsory school attendance law.

Failure to comply with the law can result in a fine of \$5 for the first offense, \$10 for the second and \$25 for the third.

School officials noted that the only children exempt from the law are those attending a private or parochial school; any child whose bodily or mental condition is not normal; or any child who lives more than 2.5 miles from the nearest public school with no free transportation provided.

Mrs. Robert Tolland;

Pian Chili Supper

The Cameron Parent Teachers Association met Thursday night October 13 in the Ben Milam Cafeteria with approximately 90 members present.

Mrs. Jewel Strong gave the devotional. Dr. Knebel introduced the guest speaker, Mrs. Robert Tolland, of the Brazos County Counseling Service.

The PTA made plans to sponsor a chili and fish supper in the Ben Milam Cafeteria before the homecoming football game with Rockdale on Friday November 4. A state parents teacher meeting will be held in Austin November 15 through 19. Those planning to attend this meeting from Cameron are Mrs. Bob Clark, Rev. Loyd Burleson and Cornelius Tittsworth. National Program theme will be "Home Create Community Strength through Character."

On October 17 there will be a district workshop for officers at A & M in the Texas A & M Student Memorial Center from 9 a. m. until 2 p. m. with a panel consisting of a teacher, minister, co-ordinator, parent and a student.

Members planning to attend are Mrs. E. O. Smith, Mrs. Bob Clark, Rev. Burleson, Mrs. Theo Mikulec and Cornelius Tittsworth. Mrs. E. O. Smith is a district delegate for this meeting. Additional members are urged to attend.

A committee to see that Cameron school students who become sick while at school have a way home was appointed with Mrs. John A. Smith as chairman. Other members of the committee are Mrs. Fred Carroll, Mrs. Bob Clark, Mrs. Tom Boyd, Rev. Loyd Burleson and Mrs. Bill Wallace. The PTA also passed a resolution to pledge support to the administration and the board of Education. Mrs. Ripley was elected second vice - president. Founders Day was celebrated with a birthday cake and Cokes as refreshments.

TO WHOM IT MAY CONCERN:

This is to certify that:

I have been affiliated with the Baptist Church and a member of the First Baptist Church, Cameron, Texas, for more than forty-six years.

It appears the Baptist Church is leading an attack on Senator John F. Kennedy in his campaign for President on the grounds of his Church affiliation. As a Baptist I do not approve of such activity on the part of the Baptist Church and severely condemn such action.

The basis for the attack being that it is alleged the Catholic Church exercises such control over individual persons of that faith which would make it possible for the Church to demand a President violate the Oath of Office as President.

If the charges were correct I am constrained to feel it largely a question of "The Pot Calling The Kettle Black", because I do not need look further than our own Baptist minister to feel that an attempt to exercise this same alleged control has been put forth and I recall that old Scripture "Let him who is without sin cast the first stone".

Women In Politics Is Program Theme For Three Arts

Mrs. Don Humble gave a program on "Women in Politics" when the Three Arts Club met Thursday afternoon at the home of Mrs. Niley J. Smith. Mrs. Earl Knebel was co - hostess.

Mrs. Humble told of the Women Suffrage movement which brought about the women's vote and discussed what influence the modern women's vote and how she exercised her voting right. In keeping with the program members answered the role with the name of women in politics.

Following the program a salad plate and coffee were served. Mrs. James Wiggs and Mrs. C. B. Harden assisted at the refreshment table which was centered with an arrangement of white mums.

Miss Mildred Thornton and Mrs. M. G. Cox left Wednesday for a ten day trip to Tennessee to visit friends.

Mrs. Monroe Marek Given Stork Shower

Mrs. Littleton Barrett and Mrs. Calvin Kraemer were hostesses to a stork shower honoring Mrs. Monroe Marek Friday at the home of Mrs. Kraemer.

Cake squares, punch and mixed nuts were served to approximately 15 guests along with pink and blue diapers filled with mints as plate favors.

Baptist TEL Class Meet In House Home

Mr. and Mrs. John T. Hauser were host to the TEL Class of the First Baptist Church October 11 at their home for a business meeting and social hour.

Mrs. I. N. West presided over the meeting. Opening prayer was given by Mrs. W. H. Fanning.

The devotional, "Forgiveness Unlimited," was ready by Mrs. Anna Reese. Mrs. Ella Clark read

the minutes of the previous meeting. Mrs. C. B. Ford, treasurer, reported on the love offering.

A covered dish luncheon and coffee was served to 17 members and one guest.

Mr. and Mrs. Lee Hall were visitors of Mr. and Mrs. M. D. Swanzy on Saturday night.

Rugged Individualist!

A young man lived with his parents in a public housing unit. He attended public schools and participated in the "Free Lunch Program." He entered the Army and upon discharge retained his National Service Life Insurance. He enrolled in the State University, working part time at the State Capitol to supplement his GI education check. Upon graduation he married a Public Health Nurse and bought a home with an FHA loan, then obtained an RFC loan to go into business.

A baby was born in the City-owned Hospital. He bought a small ranch with the aid of Veteran's Land Program and obtained emergency feed from the government. Later he put part of his land in the Soil

Bank and payments soon paid off his ranch. His father and mother lived on the ranch and very comfortably on their social security checks. REA lines supplied electricity, the government helped him clear his land, the County Agent showed him how to terrace it and the government built him a fish pond.

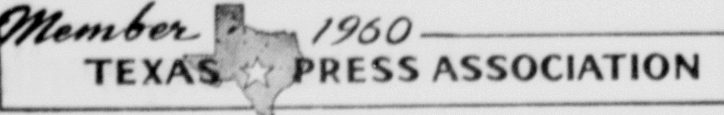

THEN ONE DAY HE WROTE HIS CONGRESSMAN: "I wish to protest these excessive governmental expenditures and attendant high taxes. I believe in rugged individualism. I think people should stand on their own feet without expecting a handout. I am opposed to all Socialistic trends and I demand a return to the principles of our constitution and the policies of States Rights." — Contributed.

Battle On To Raise Revenue

AUSTIN — Though the legislators are still home, slots already are whizzing in the battle over how to raise more state revenue in 1961.

When the lawmakers arrive in January, they will have a hard time finding a road to new money that hasn't been laid - mined and strewn with barbed wire by some group that opposes that course.

Advance studies indicate the need for as much as \$100,000,000 a year in new taxes.

Business groups, who have been holding meetings over the state, have come out flatly for a retail sales tax. They contend that to meet its needs, present and future, Texas must have a broad-based, spread - thin tax that will grow with the economy.

Representatives of organized labor, strongly opposed to a sales tax, fired back. Labor has endorsed the idea of a broad - based, "growth" tax, but insists it should be an income tax, on corporations and individuals.

Governor Daniel has voiced opposition to both sales and income taxes. Many legislators were elected on platforms opposing both.

Only other likely courses would be to raise taxes that already exist, or vote taxes previously rejected. But these roads also are blocked by groups ready to defend to the last.

On such a battlefield, lawmakers might be tempted to retreat - except that this course is cut off by supporters of better colleges, teacher raises, medical payments for the aged - all of which require more money.

U. OF HOUSTON AID APPROVED Commission on Higher Education recommended that the University of Houston be added to the state college system if it wouldn't cut into funds needed by the 19 already existing state colleges.

Final decision can be made only by Legislature.

A Commission study indicated the University of Houston would cost the state approximately \$4,000,000 a year more from the general revenue fund. It has a 22-acre campus and a plant valued at \$22,000,000. Enrollment for this year is 11,500, second only to the University of Texas with 19,000.

Commission emphasized that adding the Houston school should be conditioned on providing adequate financial support to existing state schools. Commission is tentatively recommending an appropriation of \$69,350,000 for higher education.

LITTLE RIVER PHILOSOPHER

World Should Keep Production Costs Up On Bombs, Same As Tractors

Dear editor: When I turn on a hydrant and see running water, I sometimes think science is man's greatest benefactor, but when I pick up a newspaper, I sometimes think it's his worst enemy.

For example, I read in a newspaper last night that science has now discovered a cheap way to produce a nuclear bomb.

Before I go any further, I don't know whether you're in the habit of shifting gears in your mind when you get up on the international level or not, but it's necessary to follow a discussion of this type and I will appreciate it if you'll stop and do it. That is, take the word "cheap". If you're in low, or ordinary gear, cheap means cheap, like low-priced automobiles before they became high - priced, or a \$40 suit marked up to \$50 and then marked down to \$39.50, but in international, or high - gear thinking, cheap means something else. The first atomic bomb cost, I think, better than a billion dollars, but this new method science has developed can produce one for around 50 million dollars. I'm not trying to be funny, that is comparatively cheap.

At any rate, if a nuclear bomb can now be made for 50 million dollars, the experts figure at least 20 other nations beside the three or four that now have it can soon

have the bomb too.

This is the reason I say scientists seem to have as their goal working themselves out of a job, because I can name some of those 20 nations it's going to be highly unhealthy to let have the bomb.

You take Cuba. If all that's standing between Castro and a hydrogen bomb is 50 million dollars, he can make that much just by getting on television one afternoon and talking over a few more American businesses over there. In fact, I guess you'd say Castro is the highest paid television performer in the history of the industry. I understand some American television stars make a million dollars for 32 shows a year, but Castro can make 50 times that much the first 30 minutes he's on the air. Ask any American who's lost a refinery over there. And he sometimes speaks for four or five hours.

Now I don't trust Castro with a B-B gun and a bag of chicken feathers, not to mention Castro with three or four hydrogen bombs and three or four planes and enough gasoline to fly to you know where.

If scientists were smart, they'd make hydrogen bombs more and more expensive to make, like tractors. What's got in to em, anyway?

Yours faithfully, J. A.

Recapturing The Serenity Of A Time Long Ago

Sometimes on a quiet street of a sequestered village, one can sense the tranquility of yesteryear's simple life and sturdy virtues. Today's pace is faster, its problems more complex, but the church, so esteemed by our forebears can still contribute most importantly to our peace of mind. The church remains today as always, the keystone of happy contented living.

Anglers Hate To Admit No Catch

By Vern Sanford

No angler likes to admit that he didn't catch fish on any of his fishing expeditions. In fact, no person likes to admit that he didn't do anything he set out to do, or that he should have done, or that he even wanted to do.

Sorta reminds me of the minister who announced his sermon for the morning would be about liars. He asked how many had read the 69th chapter of Matthew. A great number of hands went up.

"You're the ones I want to especially direct this sermon to," he said. "There is no 69th chapter of Matthew!"

Studies made by Heddon's research experts reveal that no angler likes to admit that he was skunked, blanked, or whitewashed. Yet it happens not once but often.

In fact, Heddon's surveys show that top-notch fishermen catch fish two-plus trips out of five. The other two plus trips they get nothing but the enjoyment of being outdoors and "away from it all."

Of course, that's worthwhile in itself. But every fisherman goes fishing to catch fish. And to varying degrees he is disappointed when he catches none.

Actually the only man who never gets skunked is the one who never fishes. And if he does fish

and says that he's never come home empty-handed, chances are he is one of those who swears he read the 69th chapter of Matthew.

Fortunately for mankind—a fellow remembers pleasures and successes more than he does unhappiness and defeat. Most every fisherman recalls the times when he makes the big catches and promptly forgets the trips when he draws the blanks.

Who was it who said — "Hope

Rockdale Tigers, A&M Consolidated See 19AA Victories

The Rockdale Tigers and A & M Consolidated squads were the 19AA teams that saw victory Friday night in high school football.

The Tigers playing on home grounds downed Hearne's Eagles, 31-6, while in Caldwell the local bunch was sloping 16-0 to A & M Consolidated.

Cody Pugh, highly touted A & M Consolidated quarterback, scored his squads first TD on a one yard plunge in the third period. Cyril Burke ran over the conversion for two points.

The final frame saw Burke plunge over from the two to climax a 60 yard A & M drive. This time it was Ozzie Burke that ran over the two extra points.

The Laurence brothers, Donnie and Ronnie, teamed together with Daniel Yezak and an outstanding defensive club dropped the Hearne Eagles by a 31-6 count.

The Hearne ball club threw 17 passes, nine of them completions but to no avail as they netted 71 yards.

Donnie Laurence intercepted a 53 yard pass that was good for six point sand scored on a 6 yard plunge. The first score of the night came off the arm of Laurence in the form of a 17 yard completion to Yezak.

The Yoemen were the only 19AA team not seeing action. Next week they will go to Caldwell.

springs eternally... Well, spring or fall, the fisherman's hopes never dim. He's a determined cuss. More power to him!

Talked to Bill Norton the other day and he was telling me that 90 per cent of the fish are caught by 10 per cent of the fishermen. Bill's one of those fishermen who ought to know, because he has

Worms Woo The Bass
fished for 40 years.

Bill told me several interesting facts and I'd like to pass some of them on to you, to add to your own repertoire of tricks.

First, if you doubt the popularity of the plastic worm, just listen to this.

His firm, so far this year, has sold almost five million. That's a lot of worms! In fact, Bill says it's a world's record.

You and I know that fishermen don't buy lures, over and over again, unless they catch fish on them. So it's pretty evident from Bill's remarks that the artificial worm has turned out to be a mighty popular bait with the fishermen.

Hotter than hot is the way Bill describes them. And he sure has the figures to prove it.

Fish up and down the slopes, deep cliffs, and both sides of points... as well as the top of the ridge when you're fishing a point.

Now that he has told you where to do it — here's how to do it.

Drag the weight along the bottom so that the floating worm is suspended a foot or two above the bottom. Fish it slow. As the weight bounces along the bottom, or among the rocks or other underwater objects, it disturbs the sand or silt, thus attracting the fish.

For best results reel in three or four times slowly, then twist or bounce the weight lightly, just enough to attract attention. Repeat that procedure until retrieved. Allow two and one half minutes to retrieve 60 feet. Then cast out again.

If you want to get some real action, Bill suggests that you tie a loose knot in the tail of the worm. Then cast it out and follow the procedure outlined above. As the lure is retrieved the knot gradually will untie itself. The water action will cause the worm to unkink. When it does, the worm will jump. This gives the worm added action.

Well, that's a trick we hadn't heard of. How about you?

Genevieve Kostroun Honored At Shower
Miss Genevieve Kostroun, bride-elect of Louis Tepera was honored with a miscellaneous shower this past weekend at the Simon George Hall.

Hostesses were Mrs. Elbert Svetic, Mrs. Alfonse Tomek, Mrs. Jerry Kostroun, Mrs. Hugo Holmas, Mrs. Richard Jistel, Mrs. Frank Klement and Mrs. Hubert Jistel.

Miss Lucille Jistel assisted by Marge Tepera presided at the bride's book at which 70 guests registered.

The serving table was covered with a white linen cloth and decorated with an arrangement of red roses. The centerpiece for the gift table was an umbrella decorated in red, the bride-elect's chosen color.

Special guests were Mrs. Louise Kostroun, Mrs. R. W. Kostroun,

mother and grandmother of the honoree; and Mrs. Louis Tepera Sr., mother of the groom elect.

Table Arrangements Theme For Milam HD Club Workshop
The Milam County Home Demonstration Club, under the supervision of Mrs. Frances Johnson, county agent, held a workshop on coffee, teas, and simple birthday parties October 11th in the Recreation Building in Marlow.

Each group participated in arranging tables and preparing foods for the different types of parties. The Christmas Tea Table arrangement was made by Mrs. Frankie Ehler of the Cameron Club.

Mrs. Artie Basking of the Milam Club made the arrangements for the Thanksgiving Coffee Table. The Birthday Table arrangement was given by Mrs. George Young Sr. and Mrs. Wavy Charles.

Forty three members and four visitors were present at the meeting. Visitors of the club were Mrs. B. L. Franks, Mrs. O. G. Tumlinson and Mrs. J. D. Moore of Cameron and Mrs. Robert Jungmann of Buckholts.

Mr. and Mrs. Earle Pearson and their daughter, Diane, left last weekend for Lake Jackson where they will make their home. The Pearsons have lived in Cameron for the past three years and have owned and operated the Chevrolet agency. Both were active in church and civic work.

Hearne Taken By Rockdale, 31-6
The Rockdale Tigers whitewashed the Hearne Eagles 31-6 in Rockdale, Friday night in the first 19AA football game for either team.

The win gave Rockdale a 3-4 district record and Hearne with a 4-3.

Donnie Laurence, speedy Tiger quarterback scored two TD's. He intercepted a Hearne pass and trotted 53 yards to paydirt and went over from the one yardline on a quarterback sneak. The first tally of the game was on a pass from Laurence to fullback Dan Yezak.

Ronnie Laurence, brother to the quarterback, plunged over right tackle for six yards and the second touchdown of the night.

Hearne tallied in the last four minutes of the game on O. B. Fowler's six yard plunge, climaxing a 53 yard drive.

Four 4-H Club Boys Going After \$650.00 at Houston Calf Scramble.

Wayne Moraw, son of Mr. and Mrs. Leo Moraw and Dennis Jistel, son of Mr. and Mrs. Richard Jistel, will enter the Beef Scramble at the Houston Stock Show on Friday night, March 3. The boys will try to catch a calf barehanded and put a halter on the "joker." If the boy makes a catch, he will receive a \$125 certificate to be used in buying a beef heifer. There will be twice as many boys in the arena as there are calves so you may expect quite a bit of "hustle" and "determination" to get a calf. The calves are Hereford or Angus calves weighing about 250 pounds and are everything but gentle.

Dairy Scramble - Roy Dean Tomasek, son of Mr. and Mrs. Henry Tomasek of the Ad Hall community and Michael Rek, son of Mr. and Mrs. Jerry Rek of the Milam community will enter the Dairy Scramble on Saturday night, March 4. The Dairy Scramble is conducted in the same manner as the Beef Scramble.

The CYO also held a record hop on the 8th of October.

PARTNERS IN TEXAS PROGRESS

No. 6 in a series.

ENJOYMENT KNOWS NO SEASON

Certain seasons of the year are best suited to particular sports... football in the cool of the fall... baseball in the heat of summer.

But, through the magic of electricity, you can enjoy entertainment and work-saving conveniences the year 'round... television and radio to fill your leisure hours... appliances to heat or cool your home, cook your food, wash your dishes, run your vacuum and perform dozens of other tasks efficiently and economically.

Research and development programs now being carried on by Texas

Power & Light Company and more than 300 other independent electric companies, together with the manufacturers supplying them, will bring you even more enjoyment and convenience in the future... lamps without cords... electric eyes to open and close windows and doors as temperature and humidity change... and other electric marvels.

Texas Power & Light Company... an investor-owned, tax-paying electric utility... pledges its continuing efforts in providing the electric power needs of today... and planning for the needs of tomorrow.

TEXAS POWER & LIGHT COMPANY

The unmistakable stamp of Greatness!

In commerce, as in art, it is rare indeed that a creation emerges so inspired in concept and so flawless in execution that it is destined, from the very beginning, for certain greatness.

And yet, it seems not too soon to say that the Cadillac car of 1961 will take its place among the most memorable of the peak achievements of the automotive craft.

Its clean, classic form introduces a new look for the world's motor cars to emulate. There's a new proportion of glass to steel... a new "oneness" of contour and shape... an entirely new relationship of interior to silhouette.

Inside, the story is equally remarkable. Here is new roominess in every dimension. Head room, seat

height, and entrance room, for example, have been notably increased with impressive results in greater comfort and luxury.

And as its beauty is... so its performance does — incredibly nimble and quick... smooth and floating... quiet and obedient in operation.

Cadillac's new engine is the very essence of controlled power... steering is feather light and sure... and its new ride seems to make the roadway vanish beneath the wheels.

This is one car you must see and drive for yourself. The facts are simply too numerous and too exciting to accept second hand.

It's the 1961 Cadillac — and we know you'll agree that greatness is written all over it.

KNOW YOUR VOTING RIGHTS!

We feel that all legal voters of Texas should know—

No matter how you have ever voted...

Or in which primary you voted...

Or if you voted...

Or how your poll tax receipt is stamped...

You CAN vote for any candidate of any party on the November 8 ballot.

For Democrats who value the ideals and true aims of the Democratic Party, the only choice is Nixon and Lodge.
